

RECRUITMENT PROCESS

The Immunology Group (inmunologia.webs.uvigo.es) at the University of Vigo, led by Prof. África González-Fernández offers **one research position** for a **postdoctoral researcher** with experience in the areas of Immunology, Cancer and Nanotechnology.

The group has several projects currently undergoing (funded by Europe, national, regional agencies, private companies and foundations) and is involved in both basic and applied Immunology, mainly focused on Nanomedicine, Vaccines, Cancer Immunotherapy and Animal Models of Autoimmune Diseases.

The laboratory of Immunology is placed at the **Biomedical Research Centre** (Centro de Investigaciones Biomédicas, CINBIO, *Centro Singular de Investigación de Galicia 2016-2019*) (www.cinbio.es) which is a multidisciplinary centre that covers some of the main research areas in **Biomedicine**.

1. PURPOSE OF THE CALL

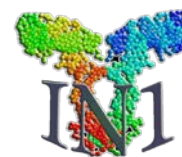

Selection of one postdoctoral researcher according to the relation and characteristics specified in Appendix I.

2. APPLICANTS REQUIREMENTS

Applicants must fulfil, at the end of the applications submission deadline, all the requirements established in this call.

General requirements

- To have an age between the minimum age and the retirement age established in Royal Legislative Decree 5/2015, of October 30.
- To have the functional capacity to perform the tasks of the requested profile.
- Not having been separated, by disciplinary file, from the service of any of the Public Administrations, nor be disqualified from performing the public functions.
- Although there is no specific requirements as to nationality or residence of applicants for participation in the selective processes, hiring of non-EU nationals will require the submission,

within a maximum period of three months, of the permit that authorizes them to work in Spain in accordance with the provisions of the Organic Law 4/2000 dated 11 January, on the rights and freedoms of foreigners in Spain and their social integration. Any non-EU candidate that did not obtain the corresponding permit after this period will decline in his/her rights.

Specific requirements

The remaining requirements are those specified in Appendix I of this call.

3. FORM AND TERM OF SUBMISSION OF APPLICATIONS

The following documentation in pdf format should be sent **by email** to inmunologia@uvigo.es, indicating **IMMUNOLOGY- 2018** as subject:

1. Form **Appendix II** file named as **"IMMUNOLOGY-2018 Applicant's full Name- Appendix II"**
2. **Curriculum vitae**. Preferentially Europass CV, file named as **"IMMUNOLOGY-2018- Applicant's full Name- CV"**.
3. **Motivation Letter** including a summary about the applicant's career and experience (1 page), named as **"IMMUNOLOGY-2018- Applicant's full Name-ML"**.
4. Names and contact information of at least three references named as **"IMMUNOLOGY-2018- Applicant's full Name-RCI"**.

Deadline: 15th November 2018 (23:00 hours, local time).

All candidates will have an adequate feedback with a message as **proof of delivery**.

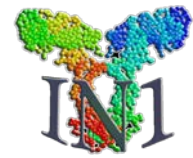

A Commission of 3 experts will select **2 candidates** that will be invited to have a personal interview.

All candidates fulfilling the requirements will be included **on a waiting list**.

The Commission could request additional documents at any moment of the selection process.

All qualified applicants will be considered for employment and will not be discriminated against based on race, colour, religion, sex, sexual orientation, gender identity, national origin, age or disability.

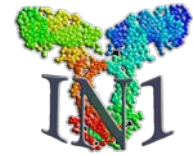

Once the deadline for submitting applications has been completed, a list of admitted and excluded candidates will be published on the Immunology Group website (inmunologia.webs.uvigo.es) opening a period of 5 working days (counted from the same day the list is published on-line) to amend any error

in the application submission. After that period, the final lists of admitted and excluded candidates will be published on the Immunology Group website.

4. **RESOLUTION OF THE CALL**

The Commission, according to the evaluation criteria described on Appendix I, will sort the applications from highest to lowest score. Once the selection process has been completed, the provisional results will be published on the Immunology Group website, establishing a reclamation period of 5 working days. After that time period, the 2 candidates with the highest score will be called for a personal interview, previous to the final decision. The final decision will be published on the Immunology Group website. The candidates included on the waiting list might be contacted if a new position is opened at the Immunology research group or in case of the awarded candidate rejection/resignation. In case of inadequacy of all candidates, the position will not be filled.

APPENDIX I. POST OFFERED

REFERENCE IMMUNOLOGY 2018. Postdoctoral

Profile: Full-time postdoctoral position in Immunology

Requested Degree: PhD in Biology, Medicine, Biochemistry or related biomedical disciplines.

Requirements: Around 5 years of postdoctoral experience, stays at international institutions will be considered as an advantage.

The following features will be evaluated:
